DESCRIÇÃO FORMATO LASER

Quando o karaoke apareceu como forma de entretenimento no Japão no final dos anos 60, início dos 70, o suporte das pistas musicais eram cassetes de áudio e a letra estava impressa em papel. Rapidamente a tecnologia evoluiu e apareceram as primeiras fitas VHS e BETA com o vídeo karaoke, mas com a dificuldade de acesso directo às faixas.

O formato LASER apareceu no mercado americano em 11 de Dezembro de 1978, 2 anos após o aparecimento do VHS e 4 anos antes do lançamento do CD.

No Japão, o LASER foi lançado em Outubro de 1981 e venderam-se 3,6 milhões de discos até 2009, ano em que o formato foi descontinuado.

A PIONEER adoptou este formato e foi a primeira empresa a investir no LASER KARAOKE , em termos de discos e máquinas de karaoke.

Em 1991, a empresa britânica SUNFLY iniciou a sua actividade no mercado do karaoke com a edição dos primeiros Laser Disc de karaoke.

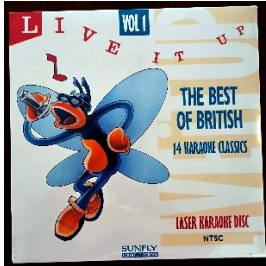

Os Laser Disc, com cerca de 30 cm de diâmetro, só são compatíveis com os leitores de laser, como por exemplo os da Pioneer. Os símbolos que reflectem a compatibilidade são:

De seguida ficam os discos LASER disponíveis no MUNDOKARAOKE. De notar que sendo um formato já descontinuado, acabam por ser peças de colecção, como por exemplo o THE BEST OF BRITISH da SUNFLY, o primeiro disco de karaoke editado pela SUNFLY e já com mais de 30 anos! Uma peça para coleccionadores!
